# Inspections

- FY 2022 inspections are up over 50% from 2021
  - This was in spite of our CA locations moving from LQG to SQG in CY 2022
  - This is still 11% below our pre COVID inspection numbers

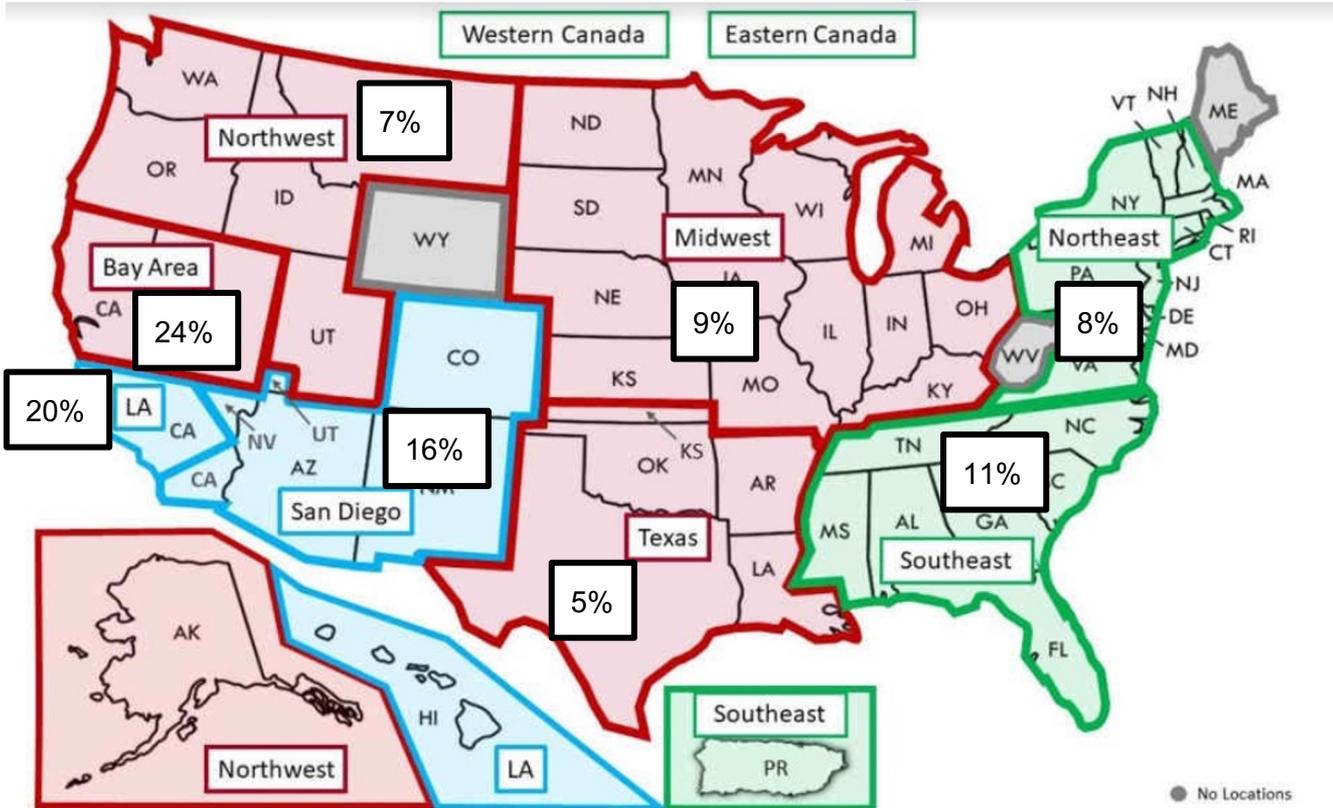

# When Did the Inspectors Come?

- May had the highest number of inspectors walk through our doors
- April, June and September had our next highest inspector traffic
- December had the least number of inspector visits

# Heat Map

# Most Frequent Inspection Types

- UST
- Haz Waste
- Air Quality
- Regulatory Reporting
- FOG

# Violation Trends

- Highest inspection to violation percentage
  - UST
  - Air Quality
  - Industrial Waste Water
  - FOG
  - Storm Water

## Inspection Ranking

1. UST
2. Haz Waste
3. Air Quality
4. Regulatory Reporting
5. FOG
